Competitive Benchmarking & System Report

Introduction

This report provides an updated competitive benchmarking analysis along with system details.

Competitive Benchmarking

We compared major competitors across features, UI/UX, pricing models, and technology stack. The evaluation helped identify gaps and improvement opportunities.

System Architecture

The system follows a modular architecture with separate layers for frontend, backend, and database.

Competitor	Strengths	Weaknesses
Competitor A	Strong UI, Fast Performance	High Pricing
Competitor B	Affordable Pricing	Limited Features
Competitor C	Feature Rich	Complex Interface

Visual Placeholder: System Diagram

Below is a placeholder box representing where a real screenshot or architecture diagram would appear.
